

## 9\_Diabetes

May 18, 2018 (Friday)

10:30-12:00

1

### Type 2 Diabetes: A Silent Killer

Chair 1: TBA

Chair 2: TBA

- 30      **Speaker 1**    **Keynote Lecture**  
Diabetes and Cardiovascular Complications in Asia  
TBA
- 20      **Speaker 2**    Global View of Type 2 Diabetes  
TBA
- 20      **Speaker 3**    Current Status of Type 2 Diabetes in Japan  
TBA
- 20      **Speaker 4**    Current Status of Type 2 Diabetes in Taiwan  
TBA

13:30-15:00

2

### Using Big Data in Diabetes Research

Chair 1: TBA

Chair 2: TBA

- 40      **Speaker 1**    **Keynote Lecture**  
Cardiovascular Effects of Anti-diabetes Drugs : Focusing upon Asians  
TBA
- 25      **Speaker 2**    Trends of Cardiovascular Complications in Subjects with Type 2 Diabetes in Taiwan  
TBA
- 25      **Speaker 3**    Anti-diabetic Medications and Cancers  
TBA

15:30-17:00

3

### Anti-diabetic Agents: What Cardiologists Should Know? (Part I)

Chair 1: TBA

Chair 2: TBA

- 20      **Speaker 1**    Insulin for Cardiologists: When, How, and What Dose?  
TBA
- 20      **Speaker 2**    Metformin for Cardiologists: Why and How?  
TBA
- 20      **Speaker 3**    Sulfonylurea for Cardiologists: What is Our Concerns?  
TBA
- 20      **Speaker 4**    Did the Heart Failure Issue Prohibit the Use of TZD?  
TBA

**May 19, 2018 (Saturday)**

**08:30-10:00**

**4**

**Anti-diabetic Agents: What Cardiologists Should Know? (Part II)**

**Chair 1:** TBA

**Chair 2:** TBA

- 30 **Speaker 1** **Keynote Lecture**  
Current perspectives on cardiovascular outcome trials in diabetes  
**TBA**
- 25 **Speaker 2** Incretin-based Therapy: What Have We Learned? (4 minutes)  
**TBA**
- 25 **Speaker 3** Is SGLT2 Inhibitor the Choice for All? (3 minutes)  
**TBA**

**10:30-12:00**

**5**

**Management of Diabetes in Patients with Cardiovascular Diseases (Part I)**

**Chair 1:** TBA

**Chair 2:** TBA

- 20 **Speaker 1** Diabetic Patients with CHD: Target and Drugs? (Diabetologist viewpoint)  
**TBA**
- 20 **Speaker 2** Diabetic Patients with CHD: Target and Drugs? (Taiwan consensus)  
**TBA**
- 20 **Speaker 3** Diabetic Patients with Stroke: Target and Drugs? (Neurologist viewpoint)  
**TBA**
- 20 **Speaker 4** Diabetic Patients with Stroke: Target and Drugs? (Taiwan consensus)  
**TBA**

**13:30-15:00**

**6**

**Management of Diabetes in Patients with Cardiovascular Diseases (Part II)**

**Chair 1:** TBA

**Chair 2:** TBA

- 20 **Speaker 1** Diabetic Patients with CKD: Target and Drugs? (Asia Pacific viewpoint)  
**TBA**
- 20 **Speaker 2** Diabetic Patients with CKD: Target and Drugs? (Taiwan consensus)  
**TBA**
- 20 **Speaker 3** Diabetic Patients with Heart Failure: Target and Drugs? (European viewpoint)  
**TBA**
- 20 **Speaker 4** Diabetic Patients with Heart Failure: Target and Drugs? (Taiwan consensus)  
**TBA**

15:30-17:00

7

**Diabetes and Heart Failure: A Deadly Duet**

**Chair 1:** TBA

**Chair 2:** TBA

- 20      **Speaker 1**    Epidemiology  
                                 **TBA**
- 20      **Speaker 2**    Insulin Resistance and the Metabolic State in HF  
                                 **TBA**
- 20      **Speaker 3**    Will Anti-diabetic Agents Induce HF?  
                                 **TBA**
- 20      **Speaker 4**    Target of A1C and Treatment  
                                 **TBA**

**May 20, 2018 (Sunday)**

08:30-10:00

8

**Multidiscipline Care for Patients with Diabetes**

**Chair 1:** TBA

**Chair 2:** TBA

- Time      **Speaker 1**    Effect of Diabetes Share Care System in Taiwan  
                                 **TBA**
- Time      **Speaker 2**    Diabetes Care System in Korea  
                                 **TBA**
- Time      **Speaker 3**    Diabetes Care System in China  
                                 **TBA**
- Time      **Speaker 4**    Diabetes Care System in Thailand or Malaysia  
                                 **TBA**
